Engineering Innovations in Smart and Green Cities

綠色及智慧城市的創新工程

Smart and Green Cities are more than a trend – with two-thirds of the world's population expected to live in cities by 2050, there is a need to embrace innovation to unlock their full potential. Foreseeing this inevitable transformation, Build4Asia Conference 2020 convenes guest speakers from the HKSAR government, local engineering, building companies and associations to explore innovative ways to achieve social cohesion, economic vibrancy and environmental sustainability.

隨著城市化步伐日益加快，發展智慧及綠色城市已是大勢所趨。預計到2050年，全球三分之二的人口將在城市居住，可見有必要開發創新科技來提高城市負載力。本屆Build4Asia會議以「綠色及智慧城市的創新工程」為主題，邀請了多名來自香港特區政府、本地工程、建築公司及協會的演講嘉賓，探討創新工程如何增加社會凝聚力和經濟活力，實現可持續願景。
